Finding What You Want and Taking Charge

NEW YORK—OCTOBER 3, 2017—Morgan James’s new release, *The Art of Getting Everything: How to Negotiate for What You Want and More* by Elizabeth Suárez, builds an argument for managing personal net worth and finding out useful tactics for building the life that many want years from now. For professionals who are looking for a realistic, but effective balance between life and work.

The Art of Getting Everything: How to Negotiate for What You Want and More shows many how accepting a job that pays the bills is great, but to find the future success that one wants there needs to be a plan. Elizabeth Suárez gives readers the tactics and tools they can use to build their own future plan, and how to ask themselves the right questions when looking at an experience that will take up their working and personal time.

Finding one’s path to success is more than planning. *The Art of Getting Everything* also outlines valuable skills useful in negotiating and resolving conflict in the home and the workplace to better prepare professionals for the future they are working towards. From building plans from 90 days to 5 years, managing the life of a young professional is more focused thanks to this guide and one’s own effort!
